## **CIMPOR INCREASES GRINDING CAPACITY IN MOZAMBIQUE**

Cimpor, through its Mozambique subsidiary - Cimentos Mozambique, a member of InterCement, will increase by 220 thousand tons per year its cement grinding capacity in the country. This follows the signature of a lease agreement of a grinding unit located near the company's Matola plant. This agreement, presently in force, in addition to increase the local capacity will allow the production of a new set of products, which lies within the company's strategy to increase its attendance to customers.

With this initiative, Cimpor, a member of InterCement, will now operate 40 production units in 8 countries and 3 continents.
