CADE – DECISION

Following an announcement issued on May 29, 2014 Cimpor is reporting on the progress of the Administrative Proceedings to investigate alleged conduct alluding to financial infringements by several cement companies in the ready - mix cement and concrete markets in Brazil.

Today, in court session of CADE (the Brazilian competition authority) the appeals present by the parties were judged and the CADE decision relating to the main penalties remained unchanged. As the company is firmly convinced that no infraction was committed, by either InterCement Brasil or Cimpor Brasil, - both are merged as InterCement Brasil, the latter will appeal this decision.
